

# Critique and Consultation

Is there something you want to paint but don't know where to start?

Have you started a painting but are unsure how to finish it?

Have you completed a painting but are not satisfied with it and don't know how to improve it?

My critique and consultation program will provide the solution to these problems.

Simply email or post an image of your reference photo and your painting and I will analyse your progress. Also forward any specific questions or concerns you may have.

Feedback will be provided via email, post or telephone outlining an effective strategy for approaching the painting project, highlighting aspects of the painting that were handled well, identifying areas that need attention and providing suggestions and information as to how this can be achieved. I will also answer any specific questions you may have.

In this consultation, feedback will cover areas such as composition of the artwork, accuracy of drawing and perspective, use of colour and tone, mixing colours, brush handling, appropriate techniques, use of highlights and shadows etc.

Price: \$AU 20.00 per critique.
